Customer Problem Statement Template

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS) Matrix

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 (Buyer)	An avid book reader	easily discover, buy books in preferred formats (Paperback/E-Book), and track my reading progress / review books in one place	I have to use multiple platforms (one to buy, one to track reading, one to check reviews) which is fragmented	Existing bookstores focus purely on the retail transaction and lack built-in reading tracking or verified customer reviews	Annoyed, distracted, and unmotivated to maintain a consistent reading routine.
PS-2 (Seller)	An independent bookstore owner	digitize my catalog, list my formats, update inventory stock levels, and fulfill orders	Large ecommerce platforms charge high fees and have overly complex listing/registration interfaces	These platforms are optimized for huge warehouse distributors rather than small indie bookstore vendors	Discouraged, excluded from the online market, and limited in reach.
